

**Terry (Teresa) Brown**  
**All Saints Clifton**  
**Standing for Public Relations and Communications Officer**

I've been ringing in Bedfordshire since moving to Shefford in 2002. Before that I lived in Hitchin and was Northern District Secretary for the Hertford County Association of Change Ringers for three years, 2000-2003.

I have been on the Biggleswade District Committee from 2011 to 2024.

I stepped in as Bedfordshire Association Secretary half way through 2010 following the resignation of the previous Secretary and did this role for nearly 10 years until 2020. During this time I:

- was instrumental in setting up the Association Bell Restoration Fund in 2013.
- initiated Association wide Updates emailed directly to members and tower contacts.
- planned and implemented an improved Association website in 2016.
- Set up the Association's Facebook and Twitter/X accounts.

I took over as Association Webmaster in November 2022 having supported the previous Webmaster with website content editing and management since it was set up.

I have extensive experience in writing plain English communications.

I have supported both Sue Silver and Linda Garton over the years in their roles as Association President and, in the case of Sue, as Treasurer. My knowledge of the Association's management and ways of working in recent times is second to none. I have also helped to collate membership details for the launch of MemberMojo.

I feel that I have the necessary skills and experience for this role and I'm very happy to become an Association Trustee. If elected I'd welcome working with any members who have web content management, social media or communication experience/skills and would like to help raise the Association's profile and achieve its objectives.
